

Starter Pack 2018

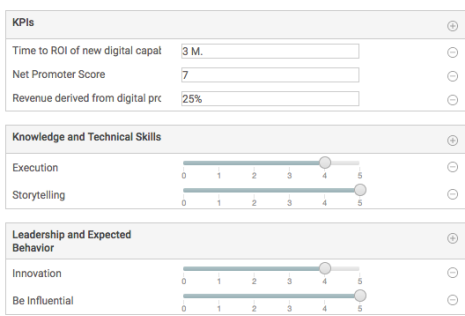

Everything you need to work with the Flowmotor Job Scorecard.

Scaling Up: Engagement. Speed. Execution.

Lean Continuous Improvement and Strategy Execution Platform:

Transparent. Professional. Secure. Connecting the One-Page Strategic Plan to Professional and Agile Management.

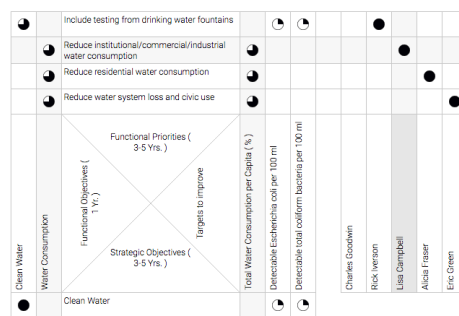

People.

Job Scorecard :: Increase employee commitment:

- Job description. Definition of roles, positions and competencies to achieve business goals
- Selecting candidates. Choose the right person and hire the best candidate/employee
- Career development. Job performance of an employee is documented and evaluated in the personal development interview

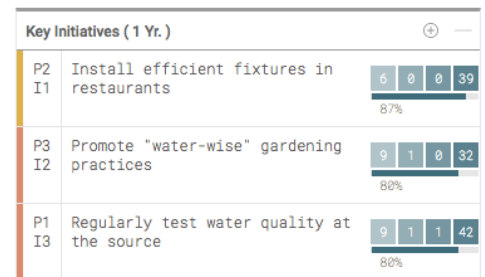

Strategy.

Hoshin Planning Matrix :: Make transparent the dependencies in your strategy execution process:

- 1. Long-term strategic goals, 2. Annual objectives, 3. Top-level priorities, 4. People responsible for executing the plan, and 5. Metrics to improve.
- Easily monitor progress on a macro level with the Hoshin Matrix Health Score

Execution.

Synchronize all activities :: Make the process more transparent and comprehensible:

- Agile project management methodologies with a task board, a daily huddle board, a kanban board, and a burndown chart
- Improved work efficiency with a task tracking workflow and a complete documentation of the processing
- Early warning system. A traffic light visualizes the achievements of the actions to take
